LIST 2805

ROSES

1928-1929

ALL BUDDED

NOVELTIES. Owing to the flood of new varieties, most of them inferior to well known kinds, we have changed our policy and from now on will not offer new kinds until we have tested them and believe they are worth distributing.

ABBREVIATIONS. The classes, H. T., H. P., etc., are too well known to need explanation. N. R. S. means National Rose Society of England. A. R. A. followed by figures refers to volume and page of American Rose Annual for further details. This is issued by American Rose Society to which everyone interested in roses should belong.

QUALITY. Everything offered is field grown and California grown. Eastern nurserymen who have visited California know that our Hybrid Teas and Pernetiana are absolutely unequaled. The vigor is such that budded stock is full grown at this date.

TIME OF SHIPMENT. Our roses are grown in Northern California. Growth is completed by June. They are ripened slowly during summer and can be dug and shipped beginning early November and continuing throughout the winter as we have no freezing weather. They will not stay dormant much after February 15th, and for good results shipments should be made by that date or else packed and put in cold storage for spring shipment.

QUANTITIES. All prices are "flat" regardless of quantity. Novelties listed at \$1.00 or higher may be ordered singly if desired. Varieties at 75c or less, not less than 5 of a kind. Please order in multiples of 10 as far as possible.

PACKING. Charged for at cost of material.

TERMS. To buyers of known or established credit, 60 days net from date of shipment. Otherwise cash with order, or 25% with order, balance C. O. D.

SHIPMENT. State explicitly whether you wish freight or express. In either case all shipments are carried at buyer's risk. Delay or damage in transit is up to transportation companies. Express is recommended for Eastern shipments. All roses will be packed and shipped from Clarke Nursery Co., San Jose, Calif.

WHOLESALE ONLY. This list is for those who are legitimately in the trade and for no one else. Orders from anyone not in the trade will positively not be accepted.

GRADES. Prices specified are for No. 1 grade. Second grade can be booked if desired at one-third less.

ROOTS. The majority are on Manetti and Odorata.

CLIMBERS are grouped by themselves as a matter of convenience.

BUDDED ROSES

BUSH VARIETIES

@ \$1.25

JULIEN POTIN (Golden Pernet) H. T. (Pernet-Ducher 1927)

Beautiful pure golden yellow. Buds are long pointed. Our tests show it far superior to

Souv. de Claudius Pernet as an outdoor rose. Gold Medal, Paris 1927. A. R. A. 13-126, 238.

@ \$1.00

DAME EDITH HELEN—H. T. (Alex Dickson & Sons 1926)

The best pink rose in years. Large, full, on strong erect stems, fragrant, fine color, vigorous, in fact, almost perfect. Gold Medal N. R. S. A. R. A. 11-178, 181. 13-152.

DORIS DICKSON—Pern. (Sandy Dickson 1926)

Coloring wonderful but hard to describe. Ground color is orange cream heavily veined and penciled with brilliant cherry red. Vigorous and hardy. Flowers of medium size,

extremely fragrant, exquisitely formed and borne profusely on good stems. A. R. A. 10-179; 13-154. Cert. of Merit N. R. S.

LADY MARGARET STEWART—H. T. (Alex Dickson & Sons 1926)

Yellow in spring, but summer and fall blooms have outer petals of carmine with deep golden yellow center making a charming combination. Very vigorous, fine stems, fragrant, healthy. Excellent in all respects. A. R. A. 11-179; 13-168. Gold Medal N. R. S.

@ 75c

ANGELE PERNET—Pern. (Pernet-Ducher 1924)

Orange yellow shaded reddish apricot. Also said to be "tango" color. Certainly has brilliant coloring. Flowers of medium size; semi-double. A. R. A. 9-172; 11-178; 12-127; 13-142. Gold Medal N. R. S. and Bagatelle.

CAPT. RONALD CLERK—Pern. (McGredy 1923).

Brilliant vermilion with faint orange sheen. Color more intense than K. of K. Flowers fairly large; high center; semi-double. Free bloomer. A. R. A. 10-183.

DR. E. M. MILLS—Hyb. Hugonis. (Dr. W. Van Fleet, 1926)

Primrose yellow suffused pink; globular. An entirely new hybrid. Makes an attractive shrub and blooms early.

FRED J. HARRISON—H. T. (A. Dickson 1924)

Cardinal red with black blotches on edges. Flowers large, double, fragrant and lasting. Growth vigorous. Continuous bloomer. Gold Medal N. R. S.; A. R. A. 9-169.

JOHN RUSSELL—H. T. (Dobbie 1925)

Dark crimson. Flowers well formed; petals stiff. Vigorous and healthy. A. R. A. 10-178. Gold Medal, Bagatelle.

MOYESI (Rosa moyesi).

A natural species from western China. Flowers blood red, single or semi-double. Beautiful foliage. Very rare.

WILHELM KODES—Pern. (Kordes 1922)

Golden yellow tinted copper and flushed red. Color is highly variable but always unique. Very fragrant, unusually free blooming. Petals so stiff that flowers are remarkably lasting. Strong fragrance. Looks like one of the very best. A. R. A. 13-195.

@ 60c

JOAN HAWORTH—H. T. (Bees, 1924).

Shell pink shaded carmine. Buds and flowers very large, full and cupped. Fragrant. A. R. A. 10-184.

REV. WILLIAMSON—Pern. (Pernet-Ducher 1921)

Coral red shaded carmine lake. Very gorgeous coloring. Buds long pointed. Flowers large and full. A beautiful variety that should be better known.

ROSELANDIA—H. T. (Stevens 1924)

A sport of Golden Ophelia with larger and deeper colored flowers. Rich fragrance. Very fine. A. R. A. 10-186; 12-143; 13-185.

SHOT SILK—Pern. (A. Dickson 1924)

Its brilliant color is hard to describe; sort of an orange cerise suffused with gold. Buds and flowers are of medium size, very fragrant and produced with great freedom. This is one of the really good ones. Gold Medal N. R. S. A. R. A. 13-187.

SUBSTITUTE JACQUES CHAPEL—H. T. (Bernaix, 1922).

Peachblossom shaded yellow at base, bordered purple rose. Vigorous, free blooming and very fragrant.
